

OSTINELLI SETA

TRANSPARENCY AND SUSTAINABILITY POLICY

Growth, transparency, and sustainability are what Ostinelli Seta S.p.A. aims to stand out for, basing its strategies on the conviction that ethics and profit cannot be in conflict, as long-term economic development cannot exist without social and environmental development.

Inspired and aligned with the Sustainable Development Goals, through the adoption of the 4sustainability® Commitment, the company commits to transparency toward the market and contributes to generating positive global change by assuming clear environmental and social responsibility.

Transparency

For Ostinelli Seta S.p.A. transparency concept directly refers to relevant information made available to all the parts and actors of the value chain in a standardized way allowing common understanding, accessibility, clarity, and comparison. Transparency is the necessary assumption to ensure the traceability requisite on products, processes and suppliers belonging to its own value chain.

Environmental responsibility

Ostinelli Seta S.p.A. sets the goal to reduce the environmental impact derived from its own business using a monitoring-oriented approach as well as performance continuous improvement, starting from the compliance with current legislation with constant attention to innovation, research, and development.

To reduce the environmental impact Ostinelli Seta S.p.A. would like to constantly decrease the release of polluting agents in production processes and therefore in the environment ensuring the respect of limits related to hazardous chemical substances presence for both men and environment and becoming more and more strict over the semi-processed/final product supplied to the customer.

Fully aware that the sustainability goals implementation is uniquely possible with a collaborative approach we constantly search for partnership with entities sharing the same attention for environmental and people protection and innovation-oriented values.

Ostinelli Seta S.p.A. has therefore defined the following macro-objectives for environmental impact reduction:

- ✓ implement a chemical risk management system for the environmental impact reduction due to the use of hazardous chemical substances for both men and environment in production process and along the supply chain as a function of the subject technical knowledge progress through the ZDHC MRSI implementation;
- ✓ guarantee to constantly monitor and improve the wastewater quality directly or indirectly connected to our production;
- ✓ guarantee to constantly monitor and improve the air emissions quality directly connected to our production;
- ✓ inform and train employees on the activities carried out by the company in the sustainability field using meetings and periodic briefings in order to promote research and innovation;
- ✓ search for regulatory compliance constantly going towards partners and suppliers sharing the same values and strategic goals and able to answer to increasingly challenging market demands;
- ✓ adopt techniques and cutting-edge management tools towards performances continuous improvement in the sustainability field;
- ✓ periodically share with stakeholders the reached results as well as the new set improvement goals;

OSTINELLI SETA

- ✓ consider as a priority to work with district partners in order to minimize environmental impacts due to materials handling along the production cycle;
- ✓ prefer whenever possible raw materials with reduced environmental and social impact such as raw material recycled or regenerated, certified, traced and tracked, organic and/or connected to sustainability initiatives;
- ✓ consider the environmental impact of our activities starting from the collection design in the perspective of sustainable/circular design;
- ✓ search for and prefer solutions for reducing waste production reduction and/or increasing reuse and recycling practices;
- ✓ limit raw material purchases coming from activities using bloody breeding or raw material uptake methods;
- ✓ limit the impact on forests due to the use of components deriving from plant raw material obtained from them and connected to situations of: i) illegal deforestation or illegal wood or cellulose trade; ii) violation of human rights in forestry activities; iii) disruption of areas of particular botanical interest; ivi) significant conversion of forests into plantations; v) OGM introduction in forestry activities; vi) ILO Convention violation for labour involved in its relative supply chain rights.

Considering the above objectives, we decided to concentrate our efforts to address the topic of the evaluation and management of the chemical risk deriving from the systemic use of chemical products. We therefore adopted the **4sustainability® Chemical Management Protocol**, implementing with a structured methodology the ZDHC MRSI (www.roadmaptozero.com), monitoring the supply chain and periodically measuring the application level in a transparent way.

Consistent with its commitment to process quality and environmental and social sustainability, Ostinelli Seta S.p.A. has also achieved the following certifications:

- ✓ **GOTS** (Global Organic Textile Standard)
- ✓ **GRS** (Global Recycled Standard)
- ✓ **RWS** (Responsible Wool Standard)
- ✓ **FSC** (Forest Stewardship Council)
- ✓ **BCI** (Better Cotton Initiative)
- ✓ **For Textile**
- ✓ **Management System for Gender Equality - UNI PdR 125:2022**
- ✓ **ACCREDIA UNI CEI EN ISO/IEC 17025:2018 (LAB N° 02042)**

Social responsibility

In the ethical-social sphere, Ostinelli Seta S.p.A. commits to respect labours rights according to the Universal Declaration of Human Rights and to respect the core conventions of the International Labour Organization (ILO), the national legislation and conditions set out by the national negotiation about:

- ✓ Freedom of association and right to collective bargaining
- ✓ Child labour
- ✓ Employment of children
- ✓ Forced labour
- ✓ Health and Safety
- ✓ Prevention of any discrimination and abuse phenomenon
- ✓ Regularity and transparency in employment contracts, recording of working hours, payment of due wages.
